CLX Jet Air Automatic Hand Dryer

SPECIFICATIONS

★ Product code	CL-00577
★ Dimensions	680mm x 300mm x 250mm
★ Certification	
★ Finish	Satin (Silver)
★ Air velocity	110m/s
★ Air volume	210m3/h

PRODUCT DESCRIPTION

This hand dryer uses new dual flow technology for an optimal hand drying solution. Dual flow hand drying technology uses the power of dual flow where the hands are placed into the unit at a downward angle. The “blade” effect aids the gravity effect as the water is sliced off the hands. This combined with double flow of air from both sides makes this hand drying method technically more efficient than conventional hand dryers.

FEATURES

- Rated Power - 1400 watts
- Robust ABS satin body construction
- Brushless DC Motor
- CPU controlled with infrared sensor, LED display
- Voltage - 220V-240V~60Hz
- Digital circuit and infrared sensor
- Weight - 8.5kg

BENEFITS

- Robust, high impact resistant
- Greener option to conventional drying - low rated power
- Crash proof and energy saving
- Infrared sensor boasts anti- interference abilities
- Hygienic water capture at the bottom of unit in reservoir tray

MOUNTING HEIGHT RECOMMENDATIONS

- Men 105cm Woman 97.5cm Handicapped 87.5cm

Measurements are based from the floor to the bottom of dryer
