FEATURES

- Rated power - 1150 watts
- High grade 304 stainless steel body
- Sensor distance measurement - 150 - 200mm
- Touch free infrared sensor activation
- Voltage - 220V-240V~50Hz
- Noise level - 72DB at 1 minute
- Weight - 3.9kg

BENEFITS

- Robust, high impact resistant
- Auto-stop function, built in timer stops the unit after 40sec
- Energy saving

MOUNTING HEIGHT RECOMMENDATIONS

- Men 120cm, Woman 108cm, Handicapped 94cm
- *Measurements are based from the floor to the bottom of dryer

Intelligent Temperature Control Technology

Tempo dryers feature Intelligent Temperature Control technology, to make these our most efficient, environmentally friendly dryers yet. When the washroom's ambient temperature is warm, the heating system automatically switches off. When the ambient temperature is cooler, the heating system automatically switches on again. The temperature of airflow adjusts between 20-40 degrees saving power and the environment.

What are Important factors to consider when purchasing a hand dryer?

Wattage

Electrical consumption and rated motor power - the lower the wattage the more environmentally friendly

Airspeed

The speed by which the air gets pushed through the dryer will impact effectiveness and dry time

Air volume

The volume of air moved per hour

Spares

All our Hand dryer spares are generally readily available for repairs within our technical department

Warrantees

Our hand dryers are supported with a specific warranty period per product and repairs are done on site in our technical department.

Hand dryer certification

Our range of hot air dryers offer an economical and comprehensive range of dryers to suit various installations. We have consistently strived to create durable and environmentally friendly products that are engineered with the most prestigious standards in mind. Every dryer within the the range goes through extensive testing annually to receive NRCS certification. The NRCS is the National Regulator for compulsory specifications as an independant from the original regulatory division of the SABS. The NRCS enforces compulsory specifications to protect the consumer and serves as the community watchdog regulating the industry.
